# DREAMS TURNING INTO REALITIES!

**“I listen from my eyes and speak from my hands”**

**Nandan Gaud was born with hearing impairment in Mumbai. He belongs to a middle class family where his father is a driver, mother a homemaker and an elder brother. Though, he was a pampered child but he always dreams to support his family like his father does. But, due to lesser education and lack in required skill set, seeking a suitable job was becoming a challenge for him. Like every other, he also keeps on sharing his resumes at multiple organisations but constant rejection due to his disability shattered him completely.**

**His Disability was overcoming his ability and confidence. But his undermined attitude keeps him going in direction of hope and optimism. One fine day, he came to know about the initiatives of Sarthak through his friend and without giving second thought he stepped out to enroll himself in Sarthak skill building training program. His dedicated attitude towards his course has a firm believe even in his trainer that soon he will climb the stairs of success. And, this belief didn't take much time to turn into reality. Soon after completing his training, he was hired by Mirchi and Mime as a steward.**
